

Welcome to the Connecticut Back Center!

Due to the COVID-19 pandemic, we have made adjustments to the schedule to assure physical distancing. For the protection of all patients and staff, we require that anyone entering the office wear a face covering.

Please arrive 15 minutes prior to your scheduled appointment time, unless you have not completed your new patient paperwork ahead of time, then arrive 30 mins prior.

In addition to the forms requested, please keep in mind that it is your responsibility to provide our office with all of your insurance information prior to being seen by our providers. If your insurance requires a **referral for you to see a specialist**, you are responsible for obtaining that referral, and it must be received by our office prior to your appointment, otherwise we will have to reschedule with you. Referrals can be obtained by your Primary Care Provider.

If you have a **Worker's Compensation** claim, ALL information of the claim must be received by our office prior to your appointment (i.e., date of injury, claim #, etc.)

The following is a list of items you should have available when you come to your appointment:

- Insurance card
- Photo ID
- Co-Payment
- Insurance referral, if required by your health insurance - Please feel free to call our office ahead of time to make sure this has been received.
- Imaging CD's or hard copy: MRI or X-rays. It is imperative that we have access to the actual imaging you've done, not just the report of such imaging.
- Up to date medication list and past medical history

We are excited to see you here at CBC! We thank you for choosing our practice and look forward to working with you.

Sincerely,

Jesse Eisler, MD, PhD

Welcome to CBC! Office Policies

Cancellation Policy:

If you cannot keep an appointment, please call the office to cancel at least 24 hours prior to that appointment. If you do not call the office and do not show up for the appointment, you will be charged \$50.00. This fee is NOT billable to your insurance company and will need to be paid prior to being seen for your next appointment. Of course, consideration is given to appointments canceled due to inclement weather, emergencies, illness, etc.

Payments:

Co-payments are required at the time of your visit (this is an agreement between you and your insurance company). Because of this agreement, we are mandated by your insurance company to **collect your copay at the time of service**. Those patients without health insurance (self-paying) are required to pay a \$350.00 deposit at the time of their visit, and to pay for each subsequent visit at the time of the appointment, unless other arrangements are made with the office prior to the appointment. These visits are to be paid in cash or with credit/debit card.

If a referral is required by your insurance company to see a specialist, you are responsible for obtaining that referral, and it must be sent to our office prior to your appointment by your Primary Care Physician. If it is not received, you will have to reschedule your appointment.

If you have a **worker's compensation claim**, ALL information regarding the claim must be received by our office prior to being seen. If you were involved in a **motor vehicle accident**, we MUST have a letter from your auto insurance company stating whether or not you have medical coverage (MEDPAY) with your policy, prior to being seen.

Paperwork:

If you have paperwork that requires the doctor's completion and signature, please fill out your portion of the form and either mail or bring it to the office. We do our best to have the forms ready for pickup, mailing or faxing within 7-10 business days. **Please note there is a one time fee in the amount of \$30.00 for completion of paperwork.**

Discharge Policy:

It is the policy of this practice to maintain a cooperative and trusting physician-patient relationship with its patients. When such a physician-patient relationship has not been formed or a physician-patient relationship is no longer proceeding in a mutually productive manner, it is the policy of this practice to terminate the physician-patient relationship within the bounds of applicable state and federal laws, rules, and regulations; the American Medical Association guidelines, and this policy so that the patient can develop the type of trusting relationship with another physician that is essential to successful continued care and treatment.
